PROFILE INFO

I'm an aspiring AI Software Developer currently pursuing my B.Tech at Rajalakshmi Institute of Technology. With a strong foundation in AI and Data Science, I'm passionate about designing intelligent systems and building AI-powered applications. Experienced in Python, SQL, and machine learning, I focus on AI concepts like neural networks, NLP, and computer vision, aiming to develop scalable solutions that shape the future of technology.

PROJECTS

AI RESUME SCREENER

- The AI Resume Screener is a web tool that uses NLP and machine learning to analyze resumes, match them to job descriptions, and rank candidates by relevance. It helps recruiters save time, reduce bias, and make data-driven decisions.

MECHANICALLY OPERATED FLOOR CLEANING ROVER (DESIGN)

- The Mechanically Operated Floor Cleaning Rover uses a manual crank system for movement and cleaning. It's low-cost, easy to maintain, and eco-friendly, making it ideal for small areas without needing electricity. Its simple design ensures reliable performance with minimal effort.

CERTIFICATION

- Data science using python(4/09/2024)
- Python libraries for data science(10/09/2023)
- Kaggle Advanced SQL (2/03/2024)

ACHIEVEMENT

- 1st Prize in Paper Presentation, ECE Department, Rajalakshmi Institute of Technology, Chennai (24/05/2024)

EDUCATION

2023 - 2027

RAJALAKSHMI INSTITUTE OF TECHNOLOGY

- Bachelor of Technology in Artificial Intelligence and Data Science

LANGUAGE

- Telugu
- Tamil
- English
- Hindi

SKILLS

- Python
- C/C++
- My SQL
- HTML
- CSS
- Java

TECHNOLOGY

- Figma
- My SQL
- HTML 5
- CSS 3
- Flask
- Open CV
- Java Fx
